216Production

AI Production Studio

AI-supported cinematic production for brands: Video Production, Character IP, and Content Automation systems.

Focus	AI Video Production • Character IP • Automation
Delivery	9:16 / 16:9 versions • 4K master exports (scope-based)
Working	Contract-based • NDA option • Versioning / structured review
Location	Istanbul • Global collaboration

What we help you achieve

• Launch-ready creative that looks premium and consistent across platforms.
• Fast iteration cycles (brief → concept → production → delivery).
• A repeatable pipeline: assets, exports, metadata, and publish-ready versions.

Tip: Add your LinkedIn page + showreel link here once ready.

Services

AI Video Production	Cinematic short-form and long-form videos for launch, ads, and social platforms. Includes edit, color, and sound design (scope-based).
Character IP Development	Brand characters and series formats. Visual language, consistency rules, and episodic content planning.
Automation Systems	From production to publishing: content calendar, metadata, upload workflows, versioning, and archive structure.

Process

1. Brief & Scope	Goal, platform, duration, delivery formats, timeline, and usage rights.
2. Production	AI generation + edit + color + sound / VO pipeline (as agreed).
3. Delivery	Platform versions, exports, cover frames, and archive folder structure.

Deliverables (typical)

• 16:9 + 9:16 exports, optimized for YouTube / TikTok / Instagram.
• 4K master export (scope-based) + web-ready compressed versions.
• Optional: captions, thumbnails/cover frames, metadata templates.

Compliance & trust

Contract-based engagement. NDA available upon request. Usage rights and licensing are defined per project. We keep structured versioning to make feedback and approvals fast and clear.

Starter packages (examples)

Final scope and pricing are confirmed after a brief. Packages below are frameworks to align expectations.

Launch Sprint	1 concept • 1 hero video (15–60s) • 3 cutdowns • 2 revision rounds • platform exports
Series Builder	Character/IP baseline • 5 episode plan • 5 short videos • consistency guide • export presets
Automation Setup	Publishing workflow • folder structure • naming/version rules • metadata templates • handover

What we need from you

• Brand basics: logo, colors, tone references (or competitors you like).
• Product/service description + target audience + platform priorities.
• Examples of content you like (3–5 links).
• Any compliance constraints (claims, before/after, medical/legal, etc.).
